Full year 2025 segment commentary:

Operational sales* reflected below excludes the impact of translational currency.

Innovative Medicine

Innovative Medicine worldwide operational sales grew 5.3%*, with net acquisitions and divestitures positively impacting growth by 1.2% primarily due to CAPLYTA. Growth was driven primarily by DARZALEX, CARVYKTI, ERLEADA, and RYBREVANT/LAZCLUZE in Oncology, TREMFYA and SIMPONI/SIMPONI ARIA in Immunology, and SPRAVATO in Neuroscience. Growth was partially offset by an approximate (1,040) basis points impact from STELARA in Immunology.

MedTech

MedTech worldwide operational sales grew 5.4%*, with net acquisitions and divestitures positively impacting growth by 1.1% primarily due to Shockwave. Growth was driven primarily by electrophysiology products and Abiomed in Cardiovascular and wound closure products in General Surgery.

Full-year 2026 guidance:

Johnson & Johnson does not provide GAAP financial measures on a forward-looking basis because the company is unable to predict with reasonable certainty the ultimate outcome of legal proceedings, unusual gains and losses, acquisition-related expenses, and purchase accounting fair value adjustments without unreasonable effort. These items are uncertain, depend on various factors, and could be material to Johnson & Johnson’s results computed in accordance with GAAP.

Note to investors concerning forward-looking statements:

This press release contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things: future operating and financial performance, product development, and market position and business strategy. The reader is cautioned not to rely on these forward-looking statements. These statements are based on current expectations of future events. If underlying assumptions prove inaccurate or known or unknown risks or uncertainties materialize, actual results could vary materially from the expectations and projections of Johnson & Johnson. Risks and uncertainties include, but are not limited to: economic factors, such as interest rate and currency exchange rate fluctuations or changes to applicable laws and regulations; competition, including technological advances, new products and patents attained by competitors; challenges inherent in new product research and development, including uncertainty of clinical success and obtaining regulatory approvals; uncertainty of commercial success for new and existing products; challenges to patents; the impact of patent expirations; the ability of the Company to successfully execute strategic plans, including restructuring plans; the impact of business combinations and divestitures; manufacturing difficulties or delays, internally or within the supply chain; product efficacy or safety concerns resulting in product recalls or regulatory action; significant adverse litigation or government action, including related to product liability claims; changes to applicable laws and regulations, including tax laws and global health care reforms; trends toward health care cost containment; changes in behavior and spending patterns of purchasers of health care products and services; financial instability of international economies and legal systems and sovereign risk; and increased scrutiny of the health care industry by government agencies. A further list and descriptions of these risks, uncertainties and other factors can be found in Johnson & Johnson’s most recent Annual Report on Form 10-K, including in the sections captioned “Cautionary Note Regarding Forward-Looking Statements” and “Item 1A. Risk Factors,” and in Johnson & Johnson’s subsequent Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. Copies of these filings are available online at www.sec.gov, www.jnj.com, investor.jnj.com, or on request from Johnson & Johnson. Any forward-looking statement made in this release speaks only as of the date of this release. Johnson & Johnson does not undertake to update any forward-looking statement as a result of new information or future events or developments.
